

***Antonio Koudele's  
"Aventura Cubana"  
Pure Cuban joy!***

***Son, Rumba, Danzón, Chachacha, Salsa, Bolero, Montuno, Joropo...  
Here are some of the finest sounds of the Afro-Cuban-Jazz  
Music composed and performed by Antonio Koudele, with all the  
heart and verve of a genuine Habanero. He sings lead vocals and  
plays guitar, backed up by his band of excellent musicians. These  
talented players bring that passionate Latin feeling – absolutely vital,  
hip, and easy going – that makes Cuban music such a unique style of  
highly attractive musicality. Antonio Koudele's Aventura Cubana is  
an amazingly pure rendition of that music with all its natural intensity  
and variations. Undertaking all these styles, Antonio Koudele has  
created a work worthy of recognition, deserving perhaps even a  
"Grammy" in the Latin music category.***

***During his first stay in Cuba in 2005, Antonio created a fine Cuban  
music CD called Aventura Cubana. In 2012 he went above and  
beyond that with the CD A LA MANERA CUBANA.***

***Highly recommended to anyone who appreciates good music!***
